that I have read the details in the attached circular and that my son/daughter will be  
participating in the MCAST Partner Schools Programme.

\_\_\_\_\_  
Signature of parent/guardian

\_\_\_\_\_  
ID Number of parent/guardian

ST THOMAS MORE COLLEGE  
Middle and Secondary School, Żejtun

Dear parents and guardians,

In recent weeks, your children have been asked to select option subjects that they will study in year 9 until they finish the secondary school. Students who begin studying AVC Hair, VET Engineering, VET Media, VET IT, or Art will be eligible to join in the MCAST Partner Schools program. This project lasts three (3) years and allows Hair, Engineering, Media, and IT students enrolled in the SEC program, as well as Art option students, to begin a program of study in Year 9 that will continue through Year 11, culminating in the Diploma.

This programme is an extension of the units presented in the corresponding lessons. Aside from these, lessons will be offered after school hours, allowing students to pursue a variety of modules in addition to the three completed in class between Years 9 and 11. Our students can attend these sessions for free. Students will be given a Diploma after successfully completing the six stated subjects at Level 3 (in Year 11) and achieving a level 3 in the core competencies (Maltese, Maths, English, Science, IT, and PSCD). More information will be provided during the school meeting, which will take place on **Thursday, June 6, 2024, at 9:30 a.m.** in the school hall.

All lessons will be held once a week, beginning at 3pm. Private transportation must be arranged for pickup.

If your son or daughter is interested in participating in this course, please complete out the following application form and return it by hand or email by **Friday, June 21st, 2024.**

Regards

Adrian Galea
